

Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory can automatically trigger to both unload and release as soon as the bumper release contacts the side of a dumpster. When unloading is done, the hopper could return to original upright and locked position. This particular piece of equipment is also offered with a cable which enables operation from the seat of the forklift in order to have the choice of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This product is made with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper likewise has a blue powder coat finish to be able to maintain durability.
