

Clark Forklift Parts

Clark Forklift Parts - Presently, there are at least 350,000 Clark lift trucks performing globally, and more than 250,000 in service in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique models of forklifts, with components covering more than 120,000 specific items for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark has a uncompromising goal to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly facilities because this method is particularly economical and permits minimal use of resources. Established to ensure maximum efficiency, this system is intended to discover and acknowledge the most effective methods for production plant stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The contemporary value engineering program combines modern product development and provides superior consumer support and service within the industry.
